JEWTRAW'S INJURIES PROVE SERIOUS

CONN. MILLS DEFEATS JEWETT CITY TEAM EASILY (Special to The Bulletin.)

(Special to The Bulletin.)

Danielson, Jan. 25.—Connecticut
Mills defeated Jewett City 33 to 21 in
the game played in the town hall Saturday evening. The storm and late
trains delayed the start of the game
until nearly 16.39, but the big and goed
natored audience awaited the arrival
of all the Jewett City players and
theroughly enjoyed the contest once it
was under way. Jewett City started
off like a whirlwind and piled up a big
lead, but this eventually was overcome
and Connecticut Mills won by a liberal
margin.

Manager W. E. Keach of the Con-pecticut Mills team gave out the fol-

Manager W. E. Reach of the Connecticut Mills team gave out the following statement on Sunday:

Sporting Editor of The Bulletin:

The Jewett City basketball quintet, reinforced by hired players from South Manchester, were defeated by the Connecticut Mills in Danielson Saturday evening by the score of 22 to 21.

The game was snappy and well player of by both teams. Richard Healey, as referse, had the game well in hand and gave general satisfaction. It would be an injustice to all the players to praise any sparticular player, as all forgol about individual play and gave attention to team work. Beautiful passing work to Elliott by all and accurate basket throwing by him made it possible for Connecticut Mills to win. The Jawett City team was their money, I would suggest that he meet me at The Bulletin office any night this week, excepting Tuesday and Saturday to cover than \$200 that I suggested playing for for that third game, and that will settle all arguments.

Sporting Editor Bulletin:

Dear Sir: As stated by Mgr. Bendard the basket throwing by him made it possible for Connecticut Mills to win. The Jawett City team was their money. I would suggest that he meet me at The Bulletin office any night this week, excepting Tuesday and Saturday to cover than \$200 that I suggested playing for for that third game, and that will settle all arguments.

Olis, leathers, textiles and shippings also registered advances of 1 to 3 1-2 points with miscellaneous specialties, among which were industrial Alcohol and International Paper.

The motor issues were heavy at the outset in consequence of further pressure directed against General Motors, but that stock rallied before the close, related shares and their subsidiaries also making variable gains.

Talls were again conspicuous for their extreme duliness, some of the feeders of that division making more than gractional chances. Final prices in most instances were at or near than mum quotations of the Session.

Rails were again conspicuous for the session.

Makes Important Find In Pre-Historic Field

Dr. J. Walter Fewkes, Chief of the Bureau of American Athnology, has just returned from two months field work in the Mesa Verde Park, Colorado. This park is the only

one reserved by the government for the protection of the aboriginal buildings. The field work was devoted to a cliff dwelling called Square Tower House. An unexpected result was the discovery of in inconspicuous building among the cedars at the top of the plateau.

CARPENTIER'S DISCOVERER SHOT IN CABARET

New York, Jan. 25.-Willie Lewis, former midleweight pugilist, accreditd with having brought Georges Carentier, the French champion, to the ore, was hot three times by an un-nown man in a cabaret here tonight. It was taken to a hospital, where he in a critical condition.

Lewis was wounded in the left side, left leg and left groin. He was in a telephone booth at the time of the mooting. His assallant and another man, who acted as lookout, escaped. The entertainers and others in the lace were too dazed by the sudden hots to take up the chase. No mowe for the shooting could be learned

rominent puglists to introduce Am-rican boxing in France, engaged in many bouts in Paris and in England. He was defeated by Carpentier in 1912. His last important bout was at Havana n 1915 when he was knocked out by Young Ahearn.

Forestville Team Wants Games. A challenge has been issued to any fast team in the eastern part of Connecticut by the Forestville players, Mention was made of Taftville, Plain-field, Baltic or Emeralds of Willimantie, and they would like to hear from the managers of each team. The For-estville team holds a record of win-ning 12 out of 15 games played. Send all challenges to Manager J. J. Downes, Forestville, Conn.

A Correction.

President Poincare has been elected to the French Squate. It is the first time that a French President has been elected to the Senate while still a president. He also introduced the unique procedure of sending his old lawyer's outfit to the Law Court, to be ready for him when he resumes the practice of law the day after he ceases to be the President of

Heat all rooms alike \$118 Gives you a lifetime of low-cost heating

New IDEAL-Arcola Radiator-Boiler

The IDEAL-Arcola is one of the world's newest and greatest of inventions. It is unique-being both a Boiler and a Radiator. Takes the place of a parlor stove, and distributes heat to the rooms, and through its water-jacket conveys the excess heat to connecting AMERICAN Radiators

stationed in adjoining rooms. There is no coal-waste! Unlike stoves and hot-air furnaces, the IDEAL-Arcola with its water-backed surfaces does not burn out or rust out-it will easily outwear the building in which it is placed.

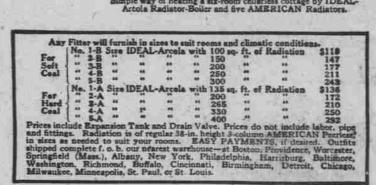

Heats the most and costs least!

The Arcola and the AMERICAN Radiators are made in sections or units and can be increased or decreased in size (Note that 65% of all buildings are altered in size.) Legs cannot be kicked out, as with stoves-hence no fire-risk to building. Does not overheat-hence no danger to children. The soft, radiant, healthful, cleanly warmth changes a house into a home. The Arcola may be painted or enameled in any shade or color to match woodwork or decorations. It is not obtrusive like a stove but may be painted to harmonize with any furnishings.

Shipped complete ready to operate

The beauty of the IDEAL-Arcola method is that no cellar is needed. Everything is on one floor. If there are two or more tenants in the building, each can have his own Arcola and make the temperature to suit his own needs-can make his own climate? If you do not wish at first to heat the entire building, buy a small size IDEAL-Arcola and one or two radiators (at prices lower than herein given) and later on buy extra sections for the IDEAL-Arcola and two or three more radiators to warm more rooms. Investigate at once this greatest value in building equipment.

Catalog showing open views of houses, individual flats, stores, offices, etc., with the IDEALArcola Boiler in position will be mailed (free). Write today
